As a creative, passionate and highly motivated individual with 10+ years working with frontend web technologies, I am looking to secure a position in a reputable organisation, which will enable me to utilise the skills, knowledge and experience I have gained through my working career and academic study.

SKILLS

Development (*HTML, CSS/CSS3, SCSS/SASS, JavaScript, ES6, React, Gatsby.js, Node.js, PHP, MySQL, Wordpress, Shopify*)

Design (*Photoshop, Sketch, Zeplin*) | **Tools** (*Gulp, Grunt, npm, Git, Jira*)

EDUCATION

Sep 2005 – Jul 2009
London, United Kingdom

University of Westminster, *Bsc Software Engineering (1st Class Honours)*

Final Year Project: I developed a prototype web American Football fantasy league application modelling the statistics of the players on a normal distribution curve. The project was completed using a Rapid application development methodology and MVC approach with .NET development tools (C#, ASP.NET 3.0, MSSQL Server 2008)

Sep 2003 – May 2005
London, United Kingdom

Thomas Tallis School, *A Levels: Mathematics, Computing, Physics*

WORK EXPERIENCE

Nov 2014 – present
London, United Kingdom

Freelance, *Frontend Developer*

I am currently working as a contract / freelance frontend developer using the latest in web technologies to aid a variety of agencies and companies in their development needs. These are some projects that I have worked on that are not under NDA:

- **Nimble Learn** *🔗* (*React, Gatsby.js, HTML, SCSS/SASS*)
- **PBC In Motion** *🔗* (*HTML, SCSS/SASS, JavaScript, Drupal, PHP, MySQL*)
- **Charles Marlow** *🔗* (*HTML, SCSS/SASS, JavaScript, Wordpress, PHP, MySQL*)
- **Nostalgia** *🔗* (*HTML, SCSS/SASS, JavaScript*)

May 2012 – Nov 2014
London, United Kingdom

Muzicall / Real Networks LTD, *Web Developer*

I was employed as a Frontend Web Developer by Muzicall a leading service provider for mobile carriers and media companies in Europe, best known for its ringback tone (RBT) platform and innovative direct-to-consumer marketing approach to the RBT business. My main duties within this organisation were developing websites and the front end of our mobile application to commercialise the Ringback Tone service with leading mobile operators (EE, Virgin, Orange, Optimus) using LAMP stack, Symfony 1.4, 2.x, HTML5, CSS3, jQuery, Sass. Muzicall was bought over by Real Networks in 2013.

Feb 2010 – May 2012
London, United Kingdom
